Art Unit: 1623

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 15-24, drawn to a method of treating diseases in humans caused by *H. pylori* infection of gastric mucosa by administration of a fucosylated N-acetyl lactosamine carbohydrate structure.

Group II, claim(s) 25 and 26, drawn to a method of treating diseases in humans caused by *H. pylori* infection of gastric mucosa by administration of antibodies to a fucosylated N-acetyl lactosamine carbohydrate structure.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons. The fucosylated N-acetyl lactosamine carbohydrate structure is not a corresponding technical feature because it is not an advance over the prior art. See column 11, lines 4-9, of STAHL et al. (A) which confirms that sialyl Lewis x and sialyl Lewis a are old.

Art Unit: 1623

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Papers relating to this application may be submitted to Technology Center 1600 by facsimile transmission. The number of the fax machine for official papers in Technology Center 1600 is (703) 308-4556. Any document submitted by facsimile transmission will be considered an official communication unless the cover sheet clearly indicates that it is an informal communication.
